Great George our King, now settled on the Throne,
Can by just Right call that great Seat his own ;
There's now no room for any blind Pretence,
Nor hopes for Juggling Priests to bring their Prince.
Just Rights and Liberties we now enjoy,
In sight of those that would the same destroy ;
And freed from Popery, Slavery, and Pride,
And likewise from a thousand Ills beside.

Bold Boreas now breaks from his hollow Caves,
 Rivers and Brooks are deck'd with silver waves,
 The bald-pate Trees are periwig'd with Snow,
 Which Nature from the hidebound Clouds lets go.

February hath xxviii days

Yet, yet fierce Boreas blust'ringly doth storm
 At Nature's Darling, which is newly born:
 The tender Bud is curb'd by the Frost's ire,
 So cold it is, the Pot may freeze by th' Fire.

Now ply your Harveit, with the *Ant* be wise,
That no one may hereafter you despise:
Kind Nature still at this time hath a Care
To fill your Garners for the future Year.

To sow your Winter Grain time doth require,
Set and remove young Trees, if you desire
The Plumb, the Pear, the Apple, and the Bay;
'Tis best of all when Luna's new, they say.

The following Tide-Table explain'd, &c.

FIRST observe the Moon's Age in every 7th Column of the foregoing Almanack, and then observe the Age set down in the first Column of the following Table, and against it, under the place you look for, you have your Desire. As, suppose I would know the time of High-water at London on January 8th this Year, against which Day I find the Moon 16 days old ; look in the following Table for 16 days old, and against it, under London, is 3, 48, which shews 'tis High-water at London that day 45 m. past 3 a-Clock ; the same at 16 days old, in the morn. so on, &c.

Note. The Moon's Age being taken notice of in the Table, you have the time of High-water at all the undernam'd places.
 Quimbrough, Portmouth, Southampton, Kenish-knock, Leith,
 Dover, 14th of Wight, Dunkirk, Candado, Coast of Flanders, &c.

bath 6 Fair-Towns.

So that the whole number of Towns wherein
Fairs are kept is about 704; by which it ap-
pears, that whereas many of the Towns have
in the Year three or four Fairs each, the num-
ber of Fairs in *England* must needs be very
many.

So now

*From Fair to Fair, O how the Chapmen trot !
Some go to buy, and some to sell, I wot ;
Some for no other Ends but cheat and trick ;
And some by Slight of Hand do Pockets pick ;
Some pilfer Stalls, and some in holes do lurk ,
Which at the end o' th' Fair brings Whipping work.*

When thou see'st a Thief, consent not with
him, but rather reprove him for his Fault ; and if
he repent and turn from the Evil of his ways, thou
may'st save a Soul from Death.

*Sometimes Dick, Ralph and Bob to Fairs will go,
To meet their Mates and see a Puppet-Show ;
Then Ralph hugs Kate, and Dick hugs bonny Nell,
And Bob courts Susan : Now, sure, all is well,
Moll turns to Tim, and Joan to smirking Ned,
And now I hope with Mates they all are sped ;
Now Piper play, the Maidens all do dance
A Jigg, a Round, or some new Tune from France ;
Cakes go to wreck, each Man drinks to his Friend,
The Pipers paid, and so the Fair doth end.* A

Of the Eclipses this Year 1726.

FOUR Eclipses will happen this Year ; two of the Sun, and two of the Moon.

The first Eclipse is of the Sun, March the 22^d day, at two in the afternoon ; but by reason of the Moon's South Latitude, not visible.

The second will be on Tuesday the 5th day of April, of the Moon, at one a Clock in the afternoon, therefore invisible.

The third is an Eclipse of the Sun, and part visible, on Wednesday the 14th day of September, in the afternoon : It begins 44 min. past 4, the middle 38 min. past 5, and the end at 28 min. past 6 in the afternoon. Its total Duration 1 hour 43 minutes. Digits eclipsed 6 deg. 3 min. on the lower side.

The fourth, and last, is a partial and visible Eclipse of the Moon, on Friday the 30th of September, in the morning. It begins 55 min. past 3, the middle 4 min. past 5, and ends 14 min. past 6 in the morning. Total Duration 2 hours 21 min. Digits eclipsed 4 deg. 58 min. on the lower side.

Some Choice Receipts, of great Use to the Honest Country-man, for Cure of his Cattle, &c.

For Inflammation or Redness in the Eyes of Cattle.

First, cord them in the Neck, and blood them in the Temples ; let them bleed well, and put into the Eyes every day burnt Allom and Honey mixt together, and they will quickly be well. *Approved.*

An Excellent Remedy for the Murrain in Cattle, which is known by foaming at the mouth.

It comes by Rankness of Blood, or Corruption of the Air; sometimes their Faces and Chaps will swell: First, let all your Beasts blood, the sound as well as the sick (for the Distemper is infectious) give the sick some Rue, Featherfew, Sage, Hyssop, Time, Marjeram, Marigolds, Fennel, Tansey, Lavender, and Spike, of each a small handful; boyl all in spring-water; boyl them from a Gallon to a Quart, then strain the Herbs forth, and for every Beast put a pint of strong Ale to the Juice; put some Long Pepper, Anniseeds, a few Pease, Bay Salt and Treacle, with some Licorish Powder and Butter; pound all these together, and put it to the Juice of the Herbs; and of this give to the sick Cattel a full pint, and to the well half as much.

For the Garget in the Maw of Cattel.

This Disease is perceiv'd by their drooping and hanging their Head and Ears, their Heart will beat, and after they will be costive; they will not eat, but always be sitting down, if possible. Let them bleed in the Neck Vein, then take Wormwood, Shepherds Purse, Rue, Smallage, Plantain, Southernwood, Colworts, (if you can't get all these things, as many as is possible) of each one handful; bruise them very small, then take a handful of Hens-dung, and lay it in steep in a pint of old Wash 8 or 9 hours, then strain out the Hens-dung clean, and put the Herbs to the Wash, and put to them a full Quart of strong Ale, set them on the fire and boil half away, then strain it; then set it on again, and add to it one ounce of Treacle and a spoonful of the Juice of Garlick, some Anniseeds and Licorish in powder; mix all together, and give the Beasts milk-warm. This is also good in the Murrain, and an excellent Cure for both.

An excellent Receipt for swelling in the Belly, and swelling behind.

For the rising in the Body and swelling behind, first look in their Mouths, and behind for Blisters, and if they have any

TRIGGE. 1726.

First break them, and then let them blood under the Tail, and then raked with a little hand in their Bodies behind, to break those in the Fundament, and give each a Quart of Butter-milk, and some Soot from the Chimney with Bole-armoniack, and an Onion, also an Egg shell and all : Give all these together, and walk them, they will, by God's Blessing, soon mend.

Or this following, which is excellent.

When you see them swell'd that you think them past help, look on the rear side, and you will see the Belly swell'd above the Ridge of the Back, and then with your Thumb and Finger feel the Rib on the one side and the Hip on the other, and the Loin-bone above, then take a Pen-knife, and a handful from the Loin and as much from the Rib, thrust in your Knife three Inches deep, which will let out the filthy Wind that would have kill'd the Beast, and they recover immediately: Then an Hour after give a Drink made of Long Pepper, Anniseeds, Licorish-powder, and a little Rue bruised, and put all together in strong Ale blood-warm. This is a noble Remedy in this Case. Then Fourteen Days after let them blood in the Neck Vein, and give afterward a little Rue steep'd in a pint of Ale. This is a certain Cure often experienc'd.

For the Pantas.

This comes by eating foul sowre Grass, or dry harsh Grass in Summer, which will not pass the Maw ; they have a short Grunt, and often stand as you drive them.

Take a Quart of Butter-milk half churn'd with the Butter in it, and take a large head of Garlick, and peel it and bruise it well, then take a pennyworth of good Tar, and a handful of the finest Feathers you can get, without stumps ; beat all these together with a little Soot, and give it the Beast. This Cures in twenty-four hours, as has been often prov'd.

An excellent Receipt for the Bite of a Shrew-mouse.

There is no Creature, for the bigness, more venomous than a Shrew-mouse ; for if she bites never so little it will swell abundantly.

For

For the Cure of which, take an Awl and prick it up and down (as far as you see the Beast swell'd) through the Hide and no farther; then take the Earth of a Wain or Cart-rout where there is much passing, let it be the dryest, mix it with White Wine Vinegar, and lay it to the place, rubbing it on it will soon assuage the part.

Again, this is excellent, Take the same Earth, and the Earth of a Swallow's Nest, mix them with old Urine like a Salve, and anoint the sore place. This is also very excellent.

A Medicine for a Cow that stales Blood.

If a Cow stale Blood, give it her again warm as comes from her; so doing two or three times, will perfect the Cure.

You may make her stale by scratching her under the Baran.

Sundry Excellent Astrological Rules to be observed in Agriculture, common Husbandry, &c. according to Claudius Dariot, and other Learned Astrologers, Physicians and Philosophers.

T hose employed in Tilling the Ground, find by daily Experience that all Plants, Seeds, &c. produced out of the Womb of the Earth, receive both their Increase and Decrease by the motion and position of the Moon, and so it comes to pass, that the honest and painful Husbandman ought in planting, sowing, grafting, &c. and in all kinds necessary in this way, to be well acquainted with the Course and Influences of the Moon and Stars. Thus Virgil not only mentions, but also approves of in his Georgicks. And the honest Country-man to whom I now write, that his Intent may be the better answer'd, must first of all have good regard to the Planet Saturn, that he be well fortified and assisted at the beginning of any work belonging to the Earth by Reason he is the chief Ruler of Husbandry, and bears Dominion over

all such Affairs. It is well, if possible, to let him be well beheld of Jupiter or Venus, and in some sort in his own Dignities. Observe he be not Retrograde, Combust, or Peregrine. Let him also be in good Configuration with the Moon, and free from the beams and influence of Mars; and let Mars be as weak as possible, either Cadent, Combust, or Peregrine; and indeed, if possible, void of all Dignities, both Essential and Accidental.

Sow Grain or Corn the Moon increasing in Signs moveable, as Aries, Libra, Cancer, or Capricorn, but if she happen in Taurus, Virgo, Sagittarius, or Pisces, &c. let her be in Sextile or Trine of Saturn; If your Seed be of a moist nature, or the Land moist, then sow, the Moon in Aries, Virgo or Capricorn, decreasing. If the Land and Seed be dry, let her be in Cancer or Pisces, in good aspect of Saturn, and they both, if possible, in good Aspect of Jupiter or Venus: But if your Land and Seed be of a middle condition, let it be sowed the Moon in Libra, well assisted as aforesaid, &c.

What you have a mind to plant, let it be when the Moon is in good aspect of Saturn, free from the body and ill Rays of Mars, and in a fixed Sign, as Taurus, Leo, Scorpio, or Aquarius, and if it be possible, in good aspect of Jupiter and Venus.

In planting Trees, let the Ascendant be Fixed, and the Moon placed in a Earthly sign, as Taurus, Virgo or Capricorn, in a good aspect of Saturn.

Graft or prune Trees, the Moon in Aquarius decreasing, and let her be in good aspect of Jupiter and Venus.

Cut down Timber for Building, from November till January, the Moon decreasing in Taurus, Virgo or Capricorn, in good aspect of Saturn.

Plash Hedges, and fell wood for Fuel, that the Stocks may the better grow again, the Moon increasing in Aries or Libra; and let Jupiter or Venus assist her.

Cut Vines from November till February, and let the Moon be in Aries, Taurus or Libra: — Remove Trees she being in the same Signs; and in all these foregoing Months, in the last quarter of the Moon, Dung Land to prevent the growing of Weeds.

Dig Gardens, plant Herbs, and set up Hop-Poles, the Moon in Aquarius or Libra.

Gather Apples, and other Fruits, Herbs and Flowers, to have them large and fair, the Moon increasing, and towards the Full: Gather them

them in a dry season, the Moon Increasing, in good aspect of Jupiter or Venus, so they will keep well.

Shear Sheep, and cut Grass for Hay, the Moon increasing, and it will grow the faster and better.

Kill fat Swine near the Full, and the Fat shall hold boiling better, and longer, than that killed at other times.

Gold Cattle, the Moon decreasing, and well affected of Jupiter or Venus, and free from the ill Rays of Saturn and Mars.

Set Beans and Pease at the New Moon, and they will bloom and knit the better, says Sir Christopher Heydon, &c.

Plant Trees the Moon in Aireal Signs, which makes them shoot out, and in Earthly Signs, makes them root deep, as is well observed.

Mr. W. Tidmard, that excellent Ancient Gardener, observes, that Trees planted when the Moon is horned, grow horned and forked also.
